Luna Apollo		B1	Nabewerking Beek
A mix of different kinds of "Löss" clays forms the basis for this facing brick. Specific sand types are used for surface covering. By smothering the brick the typical blue-grey colour is obtained.

Storage & handling		Cutting	
<div>- Store packs on a clean surface and cover them</div> <div>- Process from multiple packs at the same time</div> <div>- Follow the Vandersanden processing guidelines</div>		Dry Cutting with power tools may generate dust. This dust may contain silica or quartz particulate which may constitute a hazard. Persons undertaking work of this nature are advised to wear dust masks (FFP3).	
<div>* All our Coated bricks are only coated on the facing sides. Coated products are specially labeled and recognisable with a "C" logo on the top left-hand side of the packaging. Always check if using coated or non-coated bricks. Match the mortar to the specified initial water absorption.</div>
