

Product name	Product	group	Production location
Irene	D1	L	Hedikhuizen
The bricks are mainly produced from alluvial clays from the s	edimentary region of t	he river Meuse.	The river eroded the Ardennes
rock formations and carried along the eroded materials. In th	e flooded region of the	e river's lower co	ourse, these materials were
eventually deposited as sediments. Judicious mixing of the cla	ay deposits produces j	ust the right kind	l of base material for the
production of hand form bricks.		U U

2+ Dimensional talerances		2+	r
Dimensional tolerances	T2 		
Range Active Soluble Salts			
Mean Compressive strength	>= 10 N/mm ²	Tested to the bed face	
Normalized Compressive strength	>= 10 N/mm ²	Tested to the bed face	
Dimensional stability	NPD		
Bond Strength general	0,15 N/mm ²		
Bond Strength thin layer	0,30 N/mm ²		
Reaction to fire	A1	Category	
Water absorption	<= 15% m/md		
Water vapour permeability	5/10		
Net dry density	1800 kg/m ³ (D1)		
Gross dry density	1780 kg/m ³ (D1)		
Thermal conductivity Lambda 50/50	<=0,49 W/m.K		
Durability against freeze thaw	NPD	EN 772-22	
Dangerous substances	NL-BSB	According to A	nnex ZA 3
Other	Characteristics		
Initial rate of water absorption - Non-coated Bricks	1,5 - 4,0 kg/m ² .min	/m ² .min Value according EN771-1:2011 - 5.3.8	
	(IW3)		
Initial rate of water absorption - Coated bricks Freeze/thaw resistance - PTV 23-002	1,5 - 4,0 kg/m².min	Value according EN771-1:2011 - 5.3.8 NBN 27-009	
	(IW3)		
	NPD		
Thermal conductivity Lambda 90/90	NPD		
Thermal conductivity Lambda Ui	NPD	+	
Thermal conductivity Lambda O	NPD

Storage & handling	Cutting
 Store packs on a clean surface and cover them Process from multiple packs at the same time Follow the Vandersanden processing guidelines 	Dry Cutting with power tools may generate dust. This dust may contain silica or quartz particulate which may constitute a hazard. Persons undertaking work of this nature are advised to wear dust masks (FFP3).

* All our Coated bricks are only coated on the facing sides. Coated products are specially labeled and recognisable with a "C" logo on the top left-hand side of the packaging. Always check if using coated or non-coated bricks. Match the mortar to the specified initial water absorption.
